

PORTABLE MOBILE BATTERY STORAGE

Sparq Mobile charger

Powerful energy wherever work happens — no grid required.

Sparq Mobile charge deployed in Älgult, Sweden, in April 2026

WHAT IT IS

Sparq Mobile charger is a fully mobile energy hub that travels where your operations do. Mounted on a standard truck, it delivers clean, reliable power for construction sites, outdoor events, and remote operations — silently replacing diesel generators and eliminating fuel costs.

WHO IS IT FOR?

Construction companies, infrastructure contractors, event organisers, rental businesses, and any operation requiring temporary off-grid or remote-site power.

- ✓ "Diesel generators are expensive, noisy, and polluting — but we have no choice."
- ✓ "Grid connection at our construction site would take months and cost a fortune."
- ✓ "We need power for a temporary location — not a permanent installation."

Sparq Mobile charger

WHAT YOU GAIN

Eliminate diesel on-site

Replace generators with clean, silent battery power — cut fuel costs and meet emissions targets.

Power any site in hours

Deploy to a new location in hours, not months. No grid application, no waiting.

One asset, multiple projects

Move your battery between sites as projects evolve — maximise utilisation of your investment.

KEY COMPONENTS

- Mobile BESS (500 kWh – 1 MWh, LFP chemistry)
- Truck-mounted — fully transportable
- Powerlock connectors for rapid site connection
- Sparq EMS (EU-made energy management platform) for remote monitoring and control
- Optional EV charging outlet (Siemens Sicharge D EV charger (up to 400 kW DC))
- Optional 230V transformer

CUSTOMER STORY

"We replaced two diesel generators on a major infrastructure project. Zero fuel costs, zero noise complaints — and we moved the unit to the next site when done."

— Project Manager, Infrastructure Contractor (Sweden)

BUILT ON TRUST

Made in EU

Hardware & software developed in Europe, with local support

Fully Certified

ISO 9001, ISO 14001 & ISO 45001 — plus EN54 & CE compliance

40+ Years Experience

Leading European battery provider with decades of expertise from the battery industry

Fully Customizable

Configuration will be tailored to each customer's needs
